ABSTRACT

The International Image Interoperability Framework (IIIF) is aimed at enabling data exchange of image data and their description and annotation via software interfaces (APIs). Digital scholarly editions share this overarching objective, but focus mostly on data transmitted in textual form. The advantages of using IIIF have been discussed for some time under the keyword "Distributed Editions". The two-day workshop is intended to enable an exchange between developers of IIIF applications in libraries and digital scholarly editors.
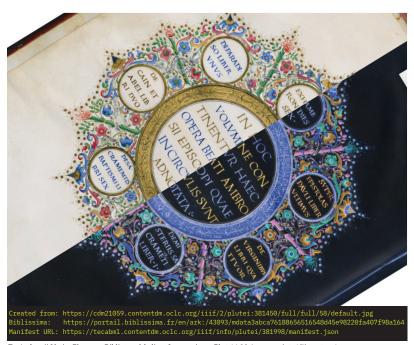

REGISTRATION

Participation is free, but as room capacity is limited we ask for registration: Contact Roman Bleier, roman.bleier@uni-graz.at or Stephan Kurz, stephan.kurz@oeaw.ac.at until April 11, 2025.

WORKSHOP

IIIF IN/AND DIGITAL SCHOLARLY EDITIONS

UNI GRAZ · CLARIAH-AT · IIIF · ihb

IHB – INSTITUTE FOR HABSBURG AND BALKAN STUDIES

PROGRAMME

12:00–13:00   **Opening remarks**
Introduction round

Lydia Eder (IHB/ÖAW)
Introduction: IIIF resources in the CLARIAH-AT framework

13:00–14:30   **Session 1**
Torsten Schaßan (Herzog-August-Bibliothek Wolfenbüttel)
Usage of IIIF for digital facsimiles and digital editions at the HAB

Johannes Knüchel, Christoph Steindl (ÖNB)
The IIIF services of the Austrian National Library

Christiane Fritze (Wienbibliothek im Rathaus)
IIIF application in the Vienna City Library

14:30–15:00   BREAK

15:00–16.30   **Session 2**
Barbara Tramelli (Freie Universität Bozen)
The use of IIIF in the Biblissima collections: future perspectives for the project ‚Le livre illustré à Lyon (1480–1600)'

Leander Seige (Leipzig University Library)
IIIF and Persistent Identifiers: Foundations for Cross-Institutional Scholarly Work

Participants' projects

16:30–17:00   BREAK

17:00–18.00   **Evening Lecture**
Glen Robson (Technical Coordinator, IIIF Consortium)
IIIF Developments and interesting implementations

Discussion

19:00   DINNER

09:00–10:30   **Session 3**
Florian Stauder (Transkribus/READ-COOP)
From Raw Data to Digital Editions using IIIF: Preparing and Publishing with Transkribus Sites

Peter Andorfer (ACDH-CH/ÖAW)
How the ACDH-CH uses IIIF (not only) for digital scholarly editions

Rainer Simon
Real-time collaborative annotation with liiive

10:30–11:00   BREAK

11:00–12:30   **Session 4**
Martina Bürgermeister (ÖNB)
Use cases of IIIF in the Digital Scholarly Editions infrastructure of the Austrian National Library

Nicolas Renet, Florian Atzenhofer-Baumgartner (Uni Graz)
IIIF for Historical Document Analysis: Approaches to Machine Learning and Image Annotation Workflows in Monasterium.net

Participants' projects

12:30–13:30   **Closing remarks**

German language short documentation on IIIF is available at https://www.ditah.at/iiif/
